THE REDCLIFF REVIEW. THURSDAY, JULY 31st, 1930

Number 21

## Conservatives Sweep The Country in The Election Last Monday

Make Gains in every Province Except B. C.—Will Have majority of 29 over all other Parties—Five Liberal Cabinet Ministers Defeated—Bennett will form New Government.

In the Dominion General election held last Monday the King Liberal Government went down to a decided defeat and the Conservatives under the leadership of Hon. R. B. Bennett swept the Country, making large gains in every province except British Columbia.

In Quebec and Manitoba the greatest gains were made. Quebec returned 25 Conservatives where there were only 4 in the House. Manitoba elected 11 Conservatives where previously there were none. Alberta and Saskatchewan which had only one Conservative representative in the last house elected 11 last Monday. British Columbia was the only province in which the Conservatives lost ground. The Liberals gained 4 seats in that province.

Outstanding in this election is the defeat of two western cabinet ministers—Hon. Chas. Dunning, farmer of the famous May day budget defeated in Regina and Hon. Thos. Crerar, one time leader of the farmer group, who was defeated in Brandon. Hon. Thos. Stewart won out by a very margin.

The latest revised summary of the Dominion election result, as compiled by the Canadian press which accounts for all but two doubtful seats in Quebec province, reveals the following standing by parties:

Conservatives	138
Liberal	15
United Farmers	10
Progressives	2
Liberal-Progressive	2
Labor	3
Independents	2
Doubtful	1

Total 245

This gives the Conservatives a clear majority of 80 over all even if the doubtful seat goes against them.

### By Province

The party standing by provinces was reported as follows:

Prince Edward Island—Liberal, 1; Conservatives, 3.  
Nova Scotia—Liberal, 4; Conservative, 10.  
New Brunswick—Liberal, 1; Conservative, 10.  
Quebec—Liberal, 37; Conservative, 25; Independent, 1; doubtful 2.

Ontario—Liberal, 21; Conservative, 60; United Farmer, 1.  
Manitoba—Liberal, 1; Conservative, 25; Labor, 2; Liberal-Progressive, 3.  
Saskatchewan—Liberal, 12; Conservatives, 7; Progressives, 2.  
Alberta—Liberal, 3; Conservatives, 4; United Farmers, 9.  
British Columbia—Liberal, 5; Conservatives, 7; Labor, 1; Independent, 1.

Yukon—Conservative, 1.  
The dramatic overturn of the King Government has been followed by swift developments. Premier King called on the Governor-General at Ottawa Tuesday afternoon and intimated his readiness to resign and advised His Excellency to send for Mr. Bennett and ascertain if Mr. Bennett was ready to form a government. It is therefore only a matter of the customary delays before the Conservative leader is invited to begin the work of Cabinet making.

## Pro. Crop Report Shows Improvement

Issued by Provincial Dept. of Agriculture.

Rains have been general throughout the Province during the past fortnight, and have created a more optimistic outlook particularly in the southern area where hot dry weather has caused damage to dry land crops. On summer fallow and on irrigated land will be light.

In the central eastern part of the Province fields which escaped serious damage from blowing and out worms are making excellent progress. In many fields the stand is thin and patchy and the harvest assurance of ample food for livestock.

Along the eastern half of the main line of the C. N. R. crops are good. North of this line, west of the C. P. R. from Edmonton to Calgary and in the Peace River district excellent condition prevail. Plenty of warm weather to hasten maturity is all that is required. Cereals in this area will mature about seven days later than last year, while south of Calgary harvest will probably

Continued on Back page.

HON. R. B. BENNETT who as a result of the election last Monday, will be Canada's next Premier.

## James F. Skidmore Passed Away Saturday

Had been Resident of Redcliff for 8 years.

Although it had been known for some time that Mr. James F. Skidmore of this town was dangerously ill the news of his death last Saturday came as very sad tidings to his many friends here. Deceased was stricken with a lingering disease some time ago and although everything possible was done to relieve his suffering and effect a cure, he gradually grew worse although at times he rallied and showed improvement. By his kindly disposition and thoughtfulness for those with whom he came in contact deceased made many friends, whose sympathy now goes out to his bereaved widow and family.

The late John Franklin Skidmore was born in Coles County, Illinois 55 years ago. In 1904 he came to Canada and for a time was engaged on the J. E. Bell ranch near Alderson. He later took up ranching for himself near Winnifred and in 1922 he came to Redcliff with his family.

Continued on Back page.

## Fairy Rhymes Come True

"Hey diddle, diddle! The cat and the fiddle, The cow jumped over the moon . . ."

In our childhood days we accepted the above as gospel, the world being then new and wonderful where anything might happen. But it remained for the year 1930 to make it partly true with the airplane flight of Strathmore Hanna Fairchild, prize Holstein calf of the C.P.R. Experimental Farm at Strathmore, to Calgary and back. Little Hanna whose mother's half sister is the famous Strathmore 874 with a record of 29,971 pounds of milk in one year, was sent for her journey in a pneumatic jacket. Her feet were secured and a strong pack placed around her up to the neck. She lay quiet like the man and seemed to like her trip. Lay-out shows Hanna who was named after John H. Hanna, secretary of the Calgary Board of Trade, greeted by a number of

leading Canadians and visitors on her arrival. Next she was seen being out of her pneumatic jacket and placed in the arms of her mother.

## Dr. Gershaw Again Elected Our Member

Defeated G. M. Blackstock by over 2000 Votes.

As a result of the elections last Monday Dr. Gershaw was again elected member for this constituency by a good substantial majority. With several small polls yet to be heard from his majority is now 2476.

Dr. Gershaw secured a majority in most of the country polls. His sweeping victory is not considered so much the approval of the Liberal government by the voters of this constituency as it is a mark of the personally popularity of Dr. Gershaw.

In Redcliff the vote was:  
Blackstock . . . . . 234  
Gershaw . . . . . 162

Majority for Blackstock, 72

There were 7 spoiled ballots here making the total vote 406. In the Dominion election in Sept. 1926 the vote in Redcliff was:

Axelson . . . . . 34  
Blackstock . . . . . 182  
Gershaw . . . . . 111

Majority for Blackstock over his two opponents 87. Majority over Dr. Gershaw 71.

## Good Attendance at Pool Aquatic Sports

Fine Program of Events For the Young People.

There was a good attendance at the aquatic sports held at the swimming pool last evening and the program put on proved most interesting and amusing. To see the number of young people and little kiddies who can now swim and are quite at home in the water as a result of the pool was quite a revelation to those who did not visit the pool before. All entered heartily into the contests and the keen competition and excellent exhibition of the contestants was most pleasing for the spectators.

The following were the prize winners.

1. 8 and under—Josy Rodman  
Boys Diving, 16 and under—Ted Maskell, Ernie Podesta.  
Girls Diving, 16 and under—June Millard, Emma Podesta.  
Mens Diving, Open—Ernie Podesta, E. Waloff.  
Women Diving, Open—June Millard, Eva Lien.  
Diving for Plates—Ernie Podesta, H. Lemming.  
Best Comic Stunt—F. Baird, Mac Martin.  
Under Water Swim—C. Miller, Ernie Podesta.  
Walking Grease Pole—B. Pearson, C. Miller.

## Brick & Coal Wins The First Round For The Bennett Shield

Defeat Legion 5 to 1 in final for this District—After Three tie Games—Now on way for Championship of the Province.

By defeating the Legion by 5 goals to one last Friday evening the Redcliff Brick & Coal team went one step further up the ladder in their aspirations for the provincial championship.

It was a real hum-dinger of a game and the decisive victory was by the Redcliff Bricks are the best little 5-1 players in this part of the province.

From the first sound of the whistle the Bricks went at it like veterans and left no doubt in the minds of their supporters that they were out to win. After playing three tie games to get into the district final the Bricks had worked up a good system of team play which they used to advantage and at no stage of the game last Friday was the final

2. Girls 8 and under—no entry  
Boys 12 and under—E. Waloff, C. Schmidt.  
Girls 12 and under—Emma Podesta, Mildred Walton.  
Boys 16 and under—Ernie Podesta, Jim Lowens.  
Girls 16 and under—Eleanor Leamouth, Norma Peck.  
Men, Open—Ernie Podesta, Jim Lowens.  
Women, Open—Eleanor Leamouth, Norma Pow.  
Boys, Diving, 10 years and under—S. Rose, J. Rodman.  
Girls Diving, 10 and under—no entries.

Boys Diving, 16 and under—Ted Maskell, Ernie Podesta.  
Girls Diving, 16 and under—June Millard, Emma Podesta.  
Mens Diving, Open—Ernie Podesta, E. Waloff.  
Women Diving, Open—June Millard, Eva Lien.  
Diving for Plates—Ernie Podesta, H. Lemming.  
Best Comic Stunt—F. Baird, Mac Martin.  
Under Water Swim—C. Miller, Ernie Podesta.  
Walking Grease Pole—B. Pearson, C. Miller.

Frank Baird created some amusement for the crowd when, at a friend he proceeded to demonstrate the "law" of gravity by proving that whatever falls off is sure to go down. Despite the buoyancy of the pool water he kept on going down till he struck the bottom.

Boys Diving, 16 and under—Ted Maskell, Ernie Podesta.  
Girls Diving, 16 and under—June Millard, Emma Podesta.  
Mens Diving, Open—Ernie Podesta, E. Waloff.  
Women Diving, Open—June Millard, Eva Lien.  
Diving for Plates—Ernie Podesta, H. Lemming.  
Best Comic Stunt—F. Baird, Mac Martin.  
Under Water Swim—C. Miller, Ernie Podesta.  
Walking Grease Pole—B. Pearson, C. Miller.

Frank Baird created some amusement for the crowd when, at a friend he proceeded to demonstrate the "law" of gravity by proving that whatever falls off is sure to go down. Despite the buoyancy of the pool water he kept on going down till he struck the bottom.

Boys Diving, 16 and under—Ted Maskell, Ernie Podesta.

HON. THOS. CRERAR  
Liberal Minister of Railways,  
Defeated in Brandon Monday.

result in doubt. In rapid succession in the first half they piled up three goals and the period was about to end that was when Fairhurst handled in the penalty area. Harvey took the penalty kick and landed squarely for the Legions only goal.

With a two goal lead to start the second half the Bricks did not resort to defensive tactics but kept up the aggressive and before the period was finished had notched two more goals leaving the tally at the finish 5 to 1 in their favor.

It would be useless to attempt to single out any players on the Bricks line-up for special mention as every man was right on his toes through the whole game making one of the finest exhibitions of team play seen this season.

All Redcliff joins in congratulating the Brick & Coal for their success so far and in expressing the hope that they will eventually win out the provincial championship.

It is not known yet when they will play their next game in this competition.

## Churches

ST. MARY'S CHURCH  
Celebration of Mass second and fourth Sunday of each month at 8:30 a. m.

## GORDON MEMORIAL UNITED CHURCH

Sunday, August 3rd, 1930  
10 a. m. Church School.  
11:15 Morning worship.  
7:30 Evening worship.

The Trail Rangers are going into Camp at Elkwater from Monday, Aug. 4 to Friday, Aug. 8. Jack Collett, Premier of the older Boy's Provincial Parliament, is to be director of the Camp. He will be in Redcliff for Sunday and will speak at the Morning and probably both services. Young people particularly are cordially invited to attend the services to hear Jack. Miss Ellis of Medicine Hat will sing at the Morning service.

ST. AMBROSE CHURCH  
Rev. Malcolm Stewart, Vicar.  
Sunday, August 3rd, 1930  
10:00 A. M. Sunday School.

Morning service 11:30  
Evening service at 8:00.  
Choir practice every Thursday evening at 7:30.  
Everybody welcome. A special invitation is extended to those who have no church home or do not attend any Sunday School.

## Delicious Salada quality is an inexpensive luxury

### The Problem of Markets

It may be poor consolation to the wheat producers of Western Canada, who are in a quandary over the problem of selling their product in the markets of the world at a price which will permit them to obtain a profit over the cost of production, to learn that they are by no means the only producers of a commodity used throughout the world who find themselves in difficulty of a like kind. And because the producers of these primary commodities are experiencing difficulty in finding markets, the makers of secondary and manufactured articles are also feeling the pinch, and find themselves overstocked with goods which they cannot at the moment sell.

The situation which exists is not one that affects Canada alone, or any one commodity alone, but the whole world. It is a problem of over-production in the majority of cases. It affects not only the primary producers in all countries, and the manufacturers, but it reacts adversely upon every class of business and every individual. Because there is a glut of primary products the transportation companies are losing business, and many of them are employing fewer men in their mainline departments. Merchants require less help because less goods are being sold, office staffs are reduced, and the resultant shortage of money and of buying power on the part of everybody has slowed up or put a temporary stop to building construction activities.

No country in the world is immune from this present condition. It is world wide, but, fortunately, Canada is less seriously affected than any other of the great trading countries of the world. While Canada's problem is wheat, Brazil's is coffee. While other countries grow coffee, notably Java and Arabia, Brazil is the great source of supply. It has been steadily increasing production, so have other countries, growing more coffee than the world could consume. In order to prevent prices falling to a ruinous figure below actual cost, Brazilian Governments bought up the surplus and kept it off the market, to be released in years of a short crop. The result is Brazil now has sufficient coffee on hand to meet total world requirements for two years, with another big crop coming on. The financial strain has proven too much for the country, and it is endeavoring to stop a huge loss, \$100,000,000 or more, at a high rate of interest, and in doing so has given a pledge it will buy no more coffee, and will liquidate its present enormous holdings within two years.

Sugar is in much the same position as coffee. In 1927 world production of sugar was placed at 23,750,000 tons, or about 300,000 tons less than consumption. The following year production exceeded consumption slightly, but in 1928-29 production jumped to over 27,000,000 tons, or far in excess of world requirements, while this year's estimates indicate a still greater production.

Cotton, too, joins the procession. In the last five years the United States produced on the average 40% more cotton than the average for the preceding ten years. The average for the ten-year period ending 1925, was about 11,000,000 bales; in 1926, about 15,000,000 bales were produced. Texas, formerly a great cotton ranching state, is now the greatest cotton producer among the states. Oklahoma is also going in strongly for cotton, and both states are using the old hand method of planting, with a result similar to the revolution in wheat production through the introduction of the combine. One Texas farmer harvested 1,700 bales of cotton with five laborers, whereas under the system in the old cotton growing states 100 workers would have been required to plant and cultivate and 200 more to pick the crop by hand. It is estimated that Texas alone could produce twice as much cotton as present world needs.

Rubber, copper, and other basic commodities are all in the same class, production outstripping consumption, the increase in the latter not nearly equaling the increase in the former, and in regard to some commodities the excess has been so great that it has caused a glut.

Coupled with this situation was the huge withdrawal of money and credit into the speculative stock market during the past two years, ending in the crash of some months ago. The effect has been to reduce the buying of their usual credit facilities, and this reacted unfavorably upon their retail purchasing, which, in turn, reacted upon consumption, consumption on manufacturing, manufacturing on labor, and labor on consumption. All business slowed up.

In the case of Malaya rubber, Cuba sugar, Brazil coffee, the idea prevalent was that because of distribution by the United States and the production. As one writer says, there could be no greater mistake. Production is controlled by the direction of the market, and is not retarded or forced by force of nature. Prices are arrived at by the relationship between supply and demand. If demand is greater than supply prices rise. If supply is greater than demand they fall.

In Canada, the source of national prosperity, it is now admitted, less in the wheat crops of the West. World wheat production is steadily, even rapidly, increasing. The biggest problem, therefore, confronting Canada today, is to find a profitable, permanent market for its wheat. To the solution of that problem every Government, the Wheat Pools, farmers' organizations, manufacturers, merchants, citizens generally, must bend their energies and to it devote their best, most constructive thought.

### Was Hero Of Sailing Adventure

Commander Gustave Maed, Agent Eighty-Two, Died in Victoria.

The death took place at Victoria, of Commander Gustave Maed, of the schooner "Half Moon," on his way to Mayne Island. He was born in England. A few years ago Commander Maed's achievement was to sail the "Half Moon," alone for 92 consecutive days against violent weather.

In a 35-foot boat with four feet draft and seven foot beam he left Victoria with the intention of sailing through the Panama Canal to Europe. When off the coast of Mexico he was unfortunately struck on the head by the boom and rendered unconscious.

### Falling Hair

Use Minard's before it's too late. It checks falling hair and stimulates new growth as well. Apply with the fingers to scalp four times a week.

**MINARD'S**  
KING OF PAIN  
LINIMENT

W. N. U. 1943

### More Remaining in Canada

Scientifically Trained Men Not Leaving in Such Large Numbers

A radical decrease in the number of scientifically trained men who find it necessary to leave Canada for employment was cited by Rev. Dr. H. J. Cody, chairman of the Board of Governors of the University of Toronto, in an address to the Canadian Manufacturers' Association there. Dr. Cody spoke of the work of the Technical Service Council, an organization founded in 1917. During the last year, 1,000 applications for trained men had been received, and 500 graduates had been placed in key positions in Canada. Since 1925 the percentage of the graduating class of Toronto University leaving the country had been reduced from 27 to 10 per cent.

### DO YOU VALUE YOUR HEALTH?

If your health is poor: if you are pale, nervous and easily tired; if you suffer from headaches, indigestion, backache; if your digestion is bad and you are often constipated; if these symptoms come from an impoverished state of the blood, then Dr. Williams' Pink Pills are a perfect medicine for you in this condition. They enrich and purify the blood, and thus promote health.

Mrs. G. M. Andrews, Halifax, N.S., writes: "I always kept Dr. Williams' Pink Pills in the house. When I was 15 years old a girl got married. I restored my health. After marriage my health broke down and once Dr. Williams' Pink Pills brought me back to health. My friends all tell me how good Dr. Williams' Pink Pills are. I can get them from all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

### Likes Canadian Papers

Britisher Wonders How They Can Accomplish So Much

"I have the highest admiration for Canadian newspapers, and wonder how it is that they accomplish so much, for I was greatly surprised and astonished to find a picture of my cousin, the late Sir Ernest Pollock, in a Vancouver paper when I got there, while the full story they had of his career was another pleasant surprise," stated Sir Henry Pollock, of Hong Kong, in newspaperman at Quebec, prior to sailing for a summer vacation in England.

Believes Asthma All Once. If you could read the thousands of letters received by the makers from grateful users, you, too, would realize the remarkable cures of J. D. Kellogg's Asthma Remedy. All cases, whether of long standing or benefited by this great family remedy. Why suffer or expose your loved ones to long preparations when the genuine Kellogg's can be purchased everywhere.

### Northern Ontario Coal

The Central provinces of Manitoba, Ontario and Quebec, although abundant in past years of considerable value, are devoid of coal with the exception of Northern Ontario, where lignite deposits have recently been opened up by the Ontario Government. Samples of this lignite are being tested in the laboratories of the Department of Mines in Ottawa, and elsewhere.

### Weak After Operation

"I was very weak after an operation. My nerves were so bad I could sit down and cry and my husband would not go out and leave me alone. Now my nerves are much better, thanks to a booklet that was left under the door. Lydia E. Pinkham's Vegetable Compound surely put me on my feet. I have taken eight bottles. My friends tell me I look fine. My sister has taken this medicine too."—Mrs. Anna Wilson, 67 Stanley St., Kingston, Ontario.

Lydia E. Pinkham's Vegetable Compound

Every man, woman and child in Canada, the report pointed out, had an interest in U.S. foreign trade amounting to \$144.

### WAS WIDELY KNOWN

### Her Three Children Troubled With Diarrhoea

Mrs. Leo Lapelle, Lanier, Mass., writes:—My three youngest children were very bad with diarrhoea. I tried all kinds of remedies, and a kind old lady told me to try Dr. Fowler's Ext-O-Strawberry. I bought a bottle and started giving it to them, and the next day the diarrhoea had stopped. I was so glad, and I was so glad when any of my children are troubled that way again."

On the market for the past 25 years; put only by The T. Millon Co. Ltd., Toronto, Ont.

### Women Who Work

Modern Devices Have Not Altogether Eliminated Work in the Home

By some persons whose knowledge of housework is limited those important members of society are supposed to have been relieved of the necessity of doing any physical work. Excessive feminine indulgence in amusements is assumed to be the sorry result.

Systematic inquiry shows a very different state of things. The bureau of home economics in the Federal Department of Agriculture reports that in country districts and in cities of less than 50,000 population, women are working considerably over forty-two hours a week, while the average among thousands of women is questioned is fifty-one hours a week.

Plainly, vacuum cleaners, electric washing machines, telephones, can and good delivery service and all the rest of the time saving and labor-saving devices have not reduced the housewife to demoralizing idleness. She is not yet threatened with cancer. There is no great danger of her finding too much leisure on her hands. Worry over her mental and moral condition is supposed stand foremost in her mind, to say the least, premature Chicago News.

Persian Balm is the one family aid for skin health and beauty. It is number one in additional uses. Protects the tender skin of the child. Relieves the itchy skin of the mother or cooling shaving lotion. No matter what use it is put, it is always beneficial to the skin. Every woman should use it. Persian Balm cools and soothes the skin and cures all complaints of surprising loveliness.

Premier King in "Audience" Prime Minister Mackenzie King entered the "Audience" for the first time when he faced a battery of moving picture sound machines and delivered a message that will produce all over Canada and United States and will be sent to Great Britain and Europe as well.

Use Minard's for Rheumatism. British Stock For Canada. If this Empire is to remain a British Empire and its practices and its institutions are to remain British, the British stock must be increased to keep pace with other stock which is flowing into the vacant space. So far as Canada is concerned there are two ways of doing this: by assimilation and by the injection of new British stock. Both processes should be worked simultaneously.

There are earthworms in Australia as much in diameter and over six feet long.

The Philippines are to have a chain of hotels.

### Interested in Canada's Railways

Many Questions Asked By People Antipodes

"One of the chief things that impressed me in both Australia and New Zealand was the intelligent interest people showed in Canada," said R. B. Peckie, general manager Canadian National Steamships, who returned recently to Montreal from a trip which has taken him around the world.

"I went to the Antipodes," he said, "in the interests of the Canadian National Steamships and it was a great satisfaction to me to find that not only were our rates desirable, but that there was a keen interest in Canada but that they had very good opinion of the national railways and our steamships. When ever I went, I was asked questions about Sir Henry Thornton, who is regarded on the other side of the world as a public figure of considerable significance. His opinion, and judgment in railway operation are studied carefully by railway officials."

Solved His Problem. A visitor from Aberdeen, at a Liverpool hotel inquired about the board charges. The figures being rather high, Sandy exclaimed: "How much do you charge for considerable sign my car?" No charge whatever, he was told. "Well, then," decided Sandy, "I will sleep in my car to-night."

Out of the water, seals have poor sight, a fact which has enabled the work of the sealskin gaiters.

FORTNIGHTLY CROP  
SHOWS IMPROVEMENT

(Continued from page one)  
commence slightly in advance of the usual season.

Oats and barley are growing rapidly and many heavy stands are seen. About 50 per cent. of oats are headed and practically all of the barley.

Hail has been reported at a number of points, but does not exceed the average.

Haying is in progress. Alfalfa is making a very heavy second growth. Pastures are in good condition. Sugar beets are doing well.

### THE GIANT AND THE DWARF

Overshadowed by the tone of steel making up the monster that has succeeded it, "Curly," as the engine is still affectionately known among veteran railwaymen, stands alongside a modern Canadian Pacific locomotive and measures only as long as the latter's cab and tender. Nevertheless, "Curly," tiny, lanky, fuel-burner of pioneer days, can claim a record seldom approached anywhere in the world for long life, usefulness and endurance.

"Curly" was brought to British Columbia in 1871 and W. H. Evans (insert), engineer of the first Canadian Pacific passenger train to reach Port Moody in 1888, says it was built in a San Francisco machine shop and later sided Court de Loeux, in the Panama Canal region, not to mention construction work in Peru. Sixty years of arduous work left their mark on "Curly," but now the engine after a thorough refitting at the Canadian Pacific Vancouver shops, is to be exhibited at the Vancouver Exhibition in August, as a museum piece of the early days.

Bill Evans was called out of retirement for purposes of this picture and gladly donned the old overalls again to show himself once more in harness alongside "Curly."
